

Facial Treatments

LIPOFIRM FACIAL

An advanced non-surgical facelift using patented TriPollar radio frequency technology to stimulate and contour the face by producing natural collagen and elastin in the skin to tighten and tone to improve elasticity, reduce and soften the appearance of fine lines and wrinkles plus aid in reducing crow's feet and puffiness around the eye area. This anti-ageing facial is non-invasive providing rejuvenating skin results that will last for up to 2 years. Your non surgical alternative to anti-wrinkle injectables.

Results should last several months, however, since the body continues to age and the ageing process cannot be stopped, it is recommended to undergo preventative treatments every few months in order to maintain the results.

Face & Jaw Line £65.00

DERMALUX FACIAL

The Dermalux® multi award-winning facial is a pain free experience with a proven mood enhancing effect. Skin absorbs the energising light and kickstarts cell regeneration to restore radiance.

30 mins £35.00

*Added to any other facial £10.00

Plasma Lift by Crystal Clear

A proven technology, Plasma Lift is the perfect choice to treat ageing skin, a revolutionary system that improves photo damaged skin, bringing fresher, firmer, more youthful looking skin, improving fine lines and sun damage. It's the only treatment that has a proven record of generating new skin.

Plasma Lift works at and below the surface of the skin, to modify the skin's architecture generating new collagen and elastin fibres, giving clinical improvements in skin tone, texture and laxity which are seen immediately and continue long term.

It can be used to treat: sagging skin on the jowl, droopy eyelids, sun-damage on face, neck, décolletage and hands, fine lines and deeper wrinkles, improved skin tone and uneven texture, wrinkles around the mouth, active acne, acne scarring, large/open pores & stretch marks.

Benefits include:

- Return to work the same day
- No thinning of the skin
- Allows the whole face and neck to be treated in a single session
- Fast treatment time
- One of the only ways to treat the eyelids without surgery
- Can be used over active acne with no risk of cross contamination, unlike most other treatments
- Non-invasive, no anaesthetic or scalpels needed
- Significant cost saving compared to surgical treatments
